A w a r d s **c e r e m o n y**

The awards and distinctions aim to recognise and encourage research, innovation and knowledge transfer in health, education and quality of life, and to foster research and teaching talent at the Universitat de Lleida and in society.

AWARDS

Award for external projects 2025

Distinction awarded to projects carried out during 2025 by external entities, institutions or teams that have stood out for their positive impact on the health, education or quality of life of the population.

Award for external projects 2026

Prize that highlights recent initiatives by entities and institutions which, throughout 2026, contribute to social progress and to the practical application of knowledge in health and education.

Award for the best Master's Final Project 2026, Master's in Research, Innovation and Transfer

Recognition of the student of this master's programme who, through their research, has contributed new perspectives or innovative solutions with potential for transfer to society or the healthcare system.

Award for the best Master's Final Project 2026, Master's in Secondary Teacher Training

Prize that recognises the commitment and creativity of future teachers in the field of training and education, rewarding the most relevant projects for their quality, rigour and applicability.

Award for the best doctoral thesis 2026 in Health, Education and Quality of Life

The highest academic distinction of the event, recognising the excellence of doctoral research for its originality, impact and contribution to scientific knowledge in the fields linked to the Chair.

Reception and networking

An opportunity to share impressions and build connections among award recipients, members of the university community and institutional representatives.
